## NARRATIVE

On 06/12/2026 at approx. 0744 hrs I was dispatched to 4400 Sable Canyon Rd (the Rivette residence) for an unresponsive male, possibly deceased. On arrival at 0752 the reporting party, housekeeper Glenda TRUAX, had opened the vehicle gate and met me in the driveway. She was visibly shaken. She stated she arrived at approx. 0740, walked to the detached studio behind the main house, opened the studio door, saw the decedent on the floor, and immediately went back outside to call 911. She stated she **did not enter the room** and did not touch anything.

The studio is a separate single-story building approx. 80 yards from the main house down a stone footpath. **On the porch beside the door I observed a brown paper fast-food bag, folded closed. The bag was cold to the touch** (I touched the exterior only). The studio door was closed but not locked. The door has a numeric keypad lock.

On entering I noticed a **strong odor in the studio that I believed to be car polish or wax**. The overhead lights and the mixing console were on; a computer monitor displayed recording software. I observed a white male, later identified as Dexter "Dex" RIVETTE (58), lying on his left side on the wood floor beside the mixing console, head toward the console's front left corner. There was blood under the head. I did not move the decedent. Halvern Fire MEDIC 7 arrived at 0753 and pronounced death at 0801.

No signs of forced entry. No furniture overturned. A row of guitars hangs on the east wall; I did not approach or touch them. A cell phone lay on the console beside the keyboard; I left it in place.

At 0806 I taped the studio door and started the scene entry log (see E-04). Sgt. #2210 arrived at 0814. At approx. 0820 the Sgt. contacted Sienna VALE at the main house; VALE stated she returned home at approx. 2:20 AM, went straight to bed, and did not go to the studio. At approx. 0825 Robert PETTIGROVE walked up the path from the guest house after hearing sirens. He was visibly upset and cried. He stated he had brought the food "around 1:15" and left it on the porch "like always" because the light was on and the victim "doesn't like to be bothered when he's working." Both VALE and PETTIGROVE were kept away from the studio. At 0830 the Sgt. requested the WBI Major Case Squad.

## SCENE

Detached private recording studio, approx. 22' × 16', climate controlled, thermostat 68°F. Overhead lights, mixing console, and computer on at arrival. Decedent on the wood floor beside the mixing console, lying on his left side, head toward the console's front left corner. Blood beneath the head, partly dried. **The floor around the head shows curved wipe marks, and the amount of blood present is less than the injury would suggest. A strong odor resembling automotive polish or wax** is present in the room. No signs of a struggle; room otherwise orderly.

## BODY

| FINDING | OBSERVED (10:52) |
|---|---|
| Body temperature (liver) | 84.9°F · ambient 68°F |
| Rigor mortis | Fully established: jaw, neck, upper and lower extremities |
| Livor mortis | Left side, consistent with position found. Partially fixed. |
| Clothing | Black t-shirt, jeans, leather boots. Four silver rings present. |

**Injuries (external, preliminary):** Laceration approx. 4 cm, right side of the head, **with an unusual patterned margin: a curved edge with several small round impressions along it. Possible second impact, upper back of the head, obscured by hair. Defer to autopsy.** No obvious defensive injuries. Hands bagged for autopsy.

**Console:** The front left corner nearest the head was examined with a light source. **No visible blood, hair, or tissue on the corner or its edges. Faint streaks consistent with wiping.** Swabbed by CSU (item 1).

**Personal effects:** Wallet in rear pocket. Cell phone on the console (left for CSU, item 4).

## ESTIMATED TIME OF DEATH

Based on body temperature, rigor, and livor at the time of examination, death most likely occurred **between approximately 10:00 PM on 06/11 and 2:00 AM on 06/12**. This is an estimate; digital and witness evidence may narrow it.

## BREAKING: ROCK LEGEND DEX RIVETTE FOUND DEAD AT HOME

**ANCHOR:** We begin with breaking news out of Halvern Hills, where Steel Mascara frontman Dex Rivette has been found dead at his home. Leah Castellane is outside the Rivette estate. Leah?

**CASTELLANE:** Thank you. I'm standing at the front gate of the Rivette estate on Sable Canyon Road, where police and the medical examiner's office have been on scene since early this morning. Westmara 8 has learned that Rivette, who was 58, was found in the private recording studio on his property by a member of his household staff. **Sources describe a possible fall** while he was working late in the studio.

For anyone who grew up in the late eighties, this one hurts. Steel Mascara's run of hits made Rivette one of the biggest voices in rock, and this spring the band announced a comeback: a new album, a reunion tour, and a new single, "Back of the Limousine," already climbing the charts. Fans have already started leaving flowers here at the gate.

Investigators from the state's Major Case Squad arrived this morning. We asked Lead Detective Jonathan Thornbury for a comment as he drove in. He did not stop.

**ANCHOR:** A tragic morning. Leah, do we know anything about how long he'd been there?

**CASTELLANE:** Not yet. We'll stay on this and bring you more as soon as we have it. Reporting live from Halvern Hills, Leah Castellane, Westmara 8 News.
